NOTED

Dear Jim:

Enclosed is a first draft of this patent application.

I believe that this application should be filed on the same day as PM 1343 and PM 1375, both of which are now in your hands for execution by the inventors. You may therefore want to try to accelerate the review of this application so as not to unduly delay the filing of those other applications.

I look forward to receiving your comments.

Sincerely yours,

Robert R. Jackson
